

## **Openness**

Captures curiosity, creativity, and openness to new experiences and ideas. Individuals high in openness are imaginative and intellectually curious, while lower openness suggests a preference for routine, familiarity, and traditional approaches.

**Writing-style descriptions:** Writing is imaginative, abstract, and exploratory. It often includes creative metaphors, novel ideas, philosophical reflections, and varied vocabulary. The style shows curiosity, originality, and comfort with ambiguity.

**Gaphology-style Overall impression:** flexible, unconventional writing.

Slant: Variable or slightly right

- Indicates adaptability, imagination, and open emotional expression.

Pressure: Variable but expressive

- Reflects emotional depth and creative engagement.

Spacing: Irregular but intentional

- Suggests originality and non-linear thinking.

Size: Medium to large with variation
